420 Lawndale Drive  
Salt Lake City UT 84115

### Calibration Industry Service Leader

**National Calibration Inc. (NCI)** is a leading calibration company in the southwestern United States and can be your sole source for calibration and repair of test and measurement equipment.

**Fortune 500 clients** and thousands of valued small clients have relied on **NCI** for decades due to our accuracy of calibration, short turnaround time and **competitive pricing**.

In the test and measurement business for over 50 years, **NCI** was first in its service area to earn **A2LA accreditation**.

#### CALIBRATION & REPAIR

**National Calibration Inc. (NCI)** provides a certificate with data and traceability documentation as requested to meet client compliance requirements dictated by industry standards and accreditation bodies.

**Audits are easier with paperless records** with our **on-line tracking** and electronic reports.

**NCI** provides regular, **on-site service with discounted fees** for many cities in the southwest. Ask us when we will be in your area for the **best rates**.

#### EQUIPMENT SALES

**NCI** is an authorized dealer for most of the equipment we calibrate. Manufacturers trust our practical knowledge of their products and our proven ability to provide quality product service. They know we work in the client's best interest and treat clients with care.
